

STOP!

**I Don't Mean To Butt In, But...**

I just saw you do something that is commendable. You may not even realize it, but by your actions, you just saved yourself and your fellow workers from an accident or injury. You are a valuable person because you believe in safety.

I'm giving you this card because all of us should care about safety - if you see someone else who does, pass this along because caring about job safety can be contagious!
